

Year 2 Newsletter

Welcome back to the Summer Term - our final term in Year 2 and in Key Stage II! This term we have lots to look forward to as we embark on our 'Create' project and our new 'Big Question' - Does art reflect the world around us?

Create Project - Does art reflect the world around us?

This term we will have a creative focus on 'the arts' which includes both art and music.

In art, we will explore 'sculpture and 3D' by using clay to design and represent homes and houses in the world around us. Children will learn to use the 'scratch and slip' technique, to join clay by 'impressing' and 'joining' and to add detail and pattern to their artwork in different ways.

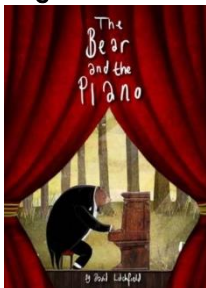

Children will also explore map making through 'craft and design'. Children will investigate maps as a stimulus for drawing before using and making a range of materials to create and communicate their own maps, reflecting the world around us. This links nicely to the work we did in Geography at the start of the year as part of our 'Explore' project.

In music, children will explore the big question through the tools of composition and improvisation. In composition, children will invent a musical story show how music teaches us about our neighbourhood. In improvisation, skills will be linked to how music connects us with our environment.

More information can be found in this term's project placemat which can be found on the Year 2 class page on the school website.

English

To support our project, we will begin the term by exploring the story 'The Bear and The Piano' by David Lichfield. This is a wonderful story about a young bear who stumbles upon a piano (something he has never seen before) in the forest. As time passes, he teaches himself how to play the strange instrument and the bear's piano playing makes him a huge star, but he misses the friends and family he has left behind. Could it be that money and celebrity are not everything?

Through the text, children will write fact files about different members of an animal orchestra, news reports about the bear's concert and their own narrative about a different animal and a talent of their own!

Of course, we will continue our focus on basic skills, letter formation, spelling and handwriting. Please look at the links on our class page for ways in which to support your child with their writing at home.

Reading

Please continue to read with your child regularly and log their reading either via the Go Read app or in their paper diary. Children should continue to have their reading folders in school daily so that we are able to read with them and change books throughout the week.

We will continue to visit the Ravenshead Library this half term. Please look out for dates (coming soon) and let us know if you are available to support with this.

Maths

In maths, we will continue to follow the White Rose programme of work. This term we will be focussing on:

- Multiplication, Division and Fractions
- Measurement (length, height, mass, capacity and temperature)
- Time (to the nearest 5 minutes)
- Statistics
- Position and Direction

By the end of Year 2, children should know their 2s, 5s and 10s confidently and be able to count in 3s.

To support at home, please log on to 'Numbots' and 'Times Table Rock Stars' regularly with your child. You can also support us by helping to teach your child to tell the time (to the nearest 5 minutes) on an analogue clock.

Other Curriculum Areas

- Science: Living things and their habitats / Plants
- DT: Mechanisms
- Computing: Coding and Online Safety
- PE: Tennis, Cricket, Athletics
- RE: What is it like to belong to the Christian religion today?
Jewish and Christian stories: How and why are some stories important in religions?

Talking Points / RSHE

RSHE lessons will continue to be taught through a range of 'Talking Points' picture books, a list of which you can find on the RSHE page on our school website [Click here to see the Y2 texts](#).

PE

PE will continue to take place on Mondays and Wednesdays and children should come into school in their PE kits on these days. Please also ensure that long hair is tied back on these days and that children are not wearing any jewellery (especially earrings).

Spellings

This term, we will continue to send 'Focus Five' words home on a fortnightly basis.

These are not to be learnt for a spelling test as such, but to embed our learning in class. Please encourage your children to practise these words at home. If they need an extra challenge, you could practise writing them in a sentence or pick a word and hunt for other words with the same spelling rule!

You can continue to support your child by practising the KSI National Curriculum spellings ([available here on the Y2 Class Page](#)).

Homework

Please refer to the Pick and Mix menu for this half term's homework expectations. Each child will be given a hard copy to bring home and a copy will be available on the school website.

Home Time

Just a reminder to let us know if you have made any different arrangements for your child to be collected at the end of the day (e.g. a different parent or after-school club). In order to ensure the children's safety, we will not let children leave unless we have been notified by parents beforehand. You can do this by emailing or calling the school office or by letting us know at the start of the school day.

Year 2 SATs

Year 2 SATs will take place during the weeks beginning 15th and 22nd May. Please read the separate letter with further information about this. If you have any questions, please don't hesitate to contact one of the team.

CAN YOU HELP?

Are you able to help with any of the topics above? Do you have any skills/talents linked to the things we are learning? Perhaps you know somebody who has a arts-based career who might be able to come in and inspire us...please let us know! We would love to invite you in.

We look forward to an exciting final term with Year 2. Please don't hesitate to ask if you have any questions.

Yours sincerely,

YEAR 2 TEAM
