

### **English**

At the start of this term, we will be creating our own story based around the Bear and the Piano. After that, we will be writing instructions to complete a task. In addition to this, we will be focussing on reading a wide range of texts, ensuring our sentences make sense and adding suffixes to our spellings, such as ful, ment, ly and ness.

### **Maths**

This term, we will be focussing on our calculation skills and applying them to reasoning problems. This will involve using the four operations and fractions and applying their skills to word and real-life problems in preparation for SATS.

### **Science**

In Science, we will be learning about animals including humans, looking at life cycles and how we grow. After this, we will be looking at plants and using the new garden to plant our own flowers and vegetables ready to recap when we are in Year 3.

### **Plants**

### **PE Days**

These will continue to be Monday and Friday. Please make sure your child comes to school in appropriate clothing and we will be outside for most sessions. There may be some changes to this as a result of Bank Holidays, so please check SchoolComms for any updates.

### **Library Visits**

After much disruption last term, we will hopefully re-start our library visits fortnightly on a Friday. If you could spare an hour to help, we would greatly appreciate it.

### **Homework**

During this term, we will have lots of revision things to do and will share them each week. There will also be the Pick and Mix homework coming soon.

**As always, if you have any thing you would like to share, any concerns, please come and talk to us!**

**Year 2 Team Mr Price, Mrs Goss, Mrs O'Dea**
