

Y3 Aim High Homework Project

As a class we have produced a menu with a range of activities that will support your child's learning at home. These activities will help support answer our big question: **How can we express our emotions through art and music?**

Children can choose from the menu below or come up with something equally as creative - we look forward to seeing their ideas! Please can the completed project(s) be brought into school or uploaded to Microsoft OneNote by **Friday 29th April**.

Option 1 - Artist or Musician Research Project

Research an artist or musician of your choice and present your findings to share with the class. You could write a biography, create a powerpoint or design a poster to share what you have learnt.

You could even create a portrait of your chosen 'superstar' using any media of your choice (i.e. paints, pastels or collage).

Option 2 - Create a song or piece of music

Create a new song to accompany an existing backing track or write your own piece of music to play on an instrument of your choice.

You could film yourself performing your 'masterpiece' or perform it in front of the class.

Option 3 - Create an instrument using recycled materials

Use junk modelling to create your very own instrument. This could be something that you bang, pluck, blow or shake.

Option 4 - Listen, appreciate and create!

Listen to your favourite piece of music and create a piece of artwork or creative writing to represent how it makes you feel. Be as creative as you like (e.g. using paints, pastels, collage, poetry and/or story writing)

This could be a song from your favourite film or a song that you like to sing along to.
