HIGH

HOMEWORK

Create a fact file, poster or mini book about how life has changed within living memory.

Look at your favourite toys and talk about what you like about them. Speak to a grown up in your family about what their favourite toys were when they were younger. Talk about how toys have changed.

Create a timeline, including pictures, of things which have happened in your life. For example, when you got your pet, when your sibling was born, when you started going to football.

Listen to some music which was popular when your parents were your age or music which they enjoyed listening to as they were growing up. Talk about your opinion of it.

We would love to see the work which you have been busy completing, please bring it into school to show us once you have completed it.
