

Y4 Aim High Homework Project

Friday 20th October 2023

Dear Parents and carers,

To complete our project 'Have we advanced or regressed since ancient times?' we would like all the children to complete an 'Aim High Homework Project' over the coming weeks.

We have worked with the children to come up with some project ideas, but the choice is entirely theirs and we look forward to seeing what they decide to create! We would like the project to be led by the children but supported by you.

Please send your completed project into school by **Friday 17th November** so that we can share and celebrate them with the rest of the class.

Many thanks for your continued support,

The Year 4 Team

Choose an aspect of life in Roman Britain. You could focus on housing, food, clothing or the Roman Army.

You could create a leaflet, PowerPoint, poster, fact file, model or other media of your choice.

Research the process of mummification. You could create your own canopic jars, using recycled jam jars or present your findings as a poster or leaflet.

Have a go at mummifying an orange!

Mummifying an Orange - Fun Science

Did you know? Even the ancient Egyptians used science! Learn how they mummified their bodies with this easy experiment. They used science to preserve the bodies and now you can see how by mummifying an orange.

You will need:

- An orange
- Knife **to be use by an adult**
- Teaspoon
- Bowl
- Kitchen roll
- Ground cinnamon
- Salt
- Bicarbonate of soda
- Bandages
- Safety pin
