

Spelling Bee's Pairs of Pears

Homophones and Near Homophones 1

Homophones are words that have the same pronunciation but have different meanings and spellings (e.g. **new** and **knew**). Try and find another homophone for the word on each **pear** to make a **pair** of homophones. The first one has been done for you.

Tip: you could use the internet to find the homophone pair but please check with a grown-up first!

Challenge: Write a silly sentence containing each word from a pair of homophones above.
